

Fostering student success through international education

Degree Resource Guide

Message from the Consortium President

On behalf of our member institutions, I am delighted to introduce you to the American Consortium of Universities. This Degree Resource Guide provides a general overview of the Consortium and lists specific programs offered by each member institution. It is designed as a convenient reference for educational advisors, placement counselors, sponsors, parents, and international students. This guide showcases a select group of universities committed to meeting the needs of students interested in U.S. higher education.

Members serve the educational needs of thousands of international students from around the world. ACU's offerings are varied and far-reaching. From associate degrees to doctoral programs, offerings include degrees in advanced science, engineering, and technology, and programs as diverse as accounting, agriculture, law, business administration, textiles, nutrition, and sports medicine.

ACU is not just about strong academic programs. International students flourish in institutions committed to international education, as evidenced by the resources -- people, facilities, support services, etc.-- they devote to it. This commitment stems from a mission not only to help international students excel educationally, but to enlist their contributions to enrich academic and learning environments for American students. It also comes from ACU's institutional programs which send American students to other countries to study; their cultural learning leads them to become better global citizens and good friends of their fellow international students.

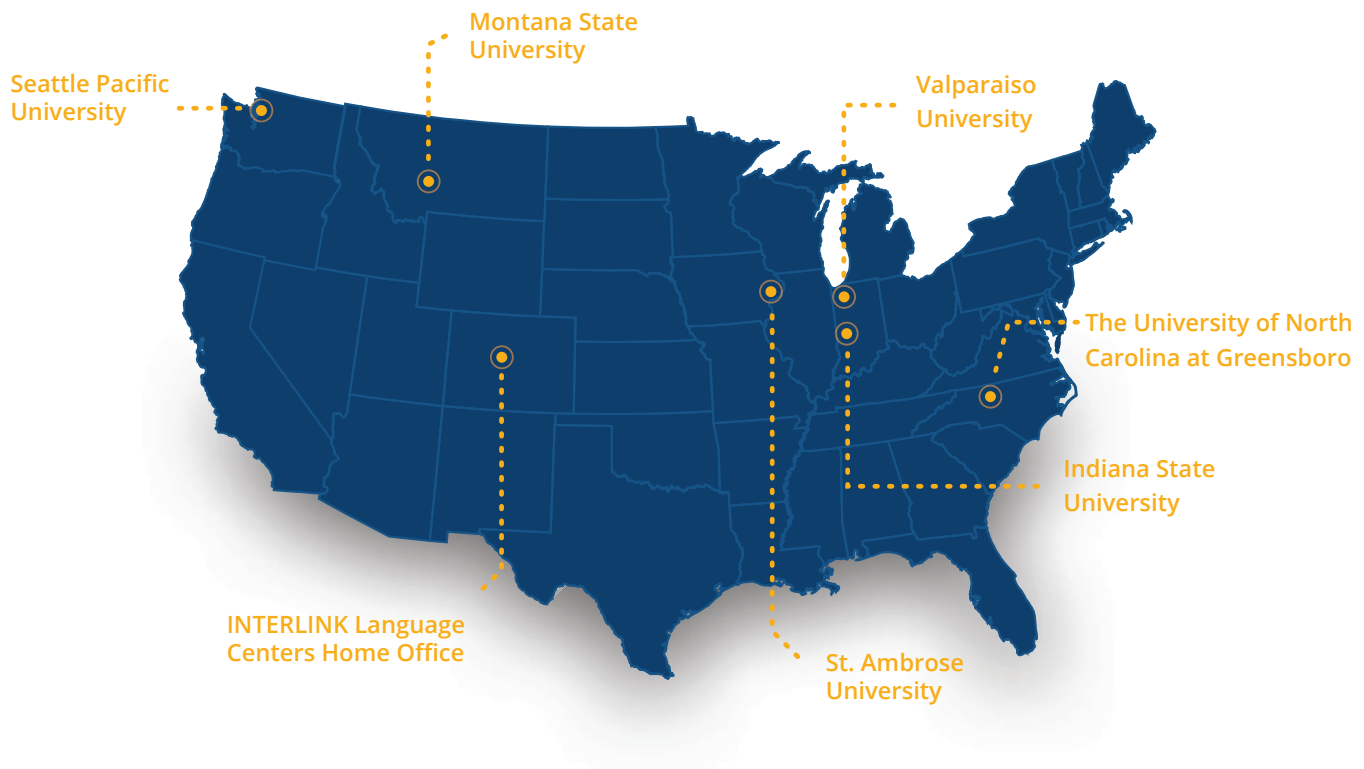

Thank you for your interest in our programs and institutions. We hope that this Degree Resource Guide will familiarize you with our offerings, answer some of your initial questions, and assist you in the selection of a school for yourself or for students you are counseling. We look forward to your inquiries and to serving your students' educational needs on our campuses.

Warmest Regards,
David Woodward

The American Consortium of Universities

The American Consortium of Universities (ACU) facilitates international student admission as well as conditional admission to a wide range of undergraduate and graduate programs at its member institutions. It is a group of accredited institutions of higher education with superior programs and features. Assistance in achieving fluency in English and adjusting to the new academic and cultural environment is provided by the INTERLINK center located on each campus. TOEFL or IELTS requirements are waived for conditionally admitted students who successfully complete the INTERLINK program.

ACU promotes innovative international education programs and partnerships between ACU member institutions and collaborating institutions around the world. The primary goal of such partnerships is to provide meaningful and worthwhile cross-cultural, educational opportunities and experiences for international students.

Graduate and Undergraduate programs in:

- Agriculture and Plant Sciences
- Arts and Architecture
- Business, Economics, Management, and Entrepreneurship
- Environmental and Advanced Sciences
- Engineering and Technology
- Education, Health, and Human Development
- Sports Medicine and Nutrition
- Law
- Textiles

Indiana State University's (ISU) 150-year tradition of service and commitment offers an academically challenging, affordable education. ISU's more than 13,000-student body represents 52 states and more than 75 countries. With five academic colleges, a wide range of programs, hands-on learning, and research opportunities, ISU prepares students for success in their career pursuits. Its focus on community and public service sets it apart from many other institutions. ISU takes great pride in preparing students to bring about positive change in the community, the country, and the world.

Distinctions

- "Top 3 in the nation for service"
- *Washington Monthly*
- "One of the best in the Midwest"
- *Princeton Review*, 12 years in a row
- "Among America's top universities"
- *Forbes*, 5 years in a row
- "Among top ranking business programs" - *Princeton Review*

Academics

ISU offers graduate and undergraduate programs in technology, business, healthcare, education, arts, and sciences. More than 300 assistantships are offered to graduate students. Student employment options are available through the campus Career Center.

Quality of Life

ISU's 13 residence halls, student recreation facilities, nationally competitive athletic teams, and more than 280 student-run organizations always have activities and entertainment for students to enjoy.

Scholarships

Up to \$20,000 in scholarships are available to undergraduate international students.

Location

Beautifully landscaped, ISU's campus is recognized by *Princeton Review* as one of the most environmentally responsible college campuses in the nation.

Located in the heart of Terre Haute, ISU's campus is within walking distance to local shops and restaurants. It is approximately ten minutes from a major interstate and is centrally located among Indianapolis, Indiana (115 km/1.3 hours), St. Louis, Missouri (270 km/2.8 hours), and Chicago, Illinois (300km/3.3hours).

Montana State University (MSU) is located in one of the most spectacular college settings in the U.S. It offers all the advantages of a larger university with the friendly community of a smaller campus. Founded as a comprehensive, public land-grant institution in 1893, MSU is among the 50 most technologically advanced universities in the world. Of its 16,440 students, 722 are international from 75 different countries. MSU's low student to faculty ratio of 19:1 makes professors accessible and provides hands-on learning opportunities. MSU students can explore their interests, gain new perspectives, and obtain the professional edge needed to build a dynamic future.

Distinctions

- Montana has been ranked #1 in the nation for start-up businesses since 2012 - *The Kaufmann Institute*
- Among the top 3% of colleges and universities for research expenditures (=\$106m)
- College of Agriculture ranked one of the top 4 in the U.S.
- *Campus Explorer* (Nov. 2015)
- College of Business ranked among the top 5% of business schools worldwide by AACSB
- Ranked #89 among public colleges and universities in the nation - *Forbes*

Quality of Life

Bozeman offers all the amenities of a bigger city, including chain stores, local shops, restaurants, coffee houses, and music venues within walking or biking distance of campus.

Academics

MSU offers more than 200 bachelor's, master's, and doctoral degree programs in colleges of: agriculture; arts & architecture; business & accounting; education, health & human development; engineering; letters & science; and nursing. Students applying to medical school are accepted at a 20% higher rate than the national average. MSU's SubZero Science and Engineering Research Facility has one of the 15 "mind-blowing college labs" in the country as recognized by Popular Science Magazine. The Center for Biofilm Engineering is considered the world's premiere institute for the study of microbial biofilms.

Scholarships

Scholarships range from \$3,000 to \$25,000 per year for undergraduates, and some graduate students can receive full funding through research or teaching assistantships.

Location

Bozeman is ranked as the #1 place to live in the U.S. by the *New York Post* and one of the top 10 U.S. college towns by *Forbes*. At the crossroads of Yellowstone National Park, it offers some of the biggest skiing in America. Bozeman serves students as a classroom, laboratory, and playground unlike any other in the world.

St. Ambrose University (SAU) is a liberal arts university rated among the top in the region by two national ranking publications. Its responsiveness to community and regional needs remains distinctive in higher education today. As a leading education institution in the Quad Cities since 1882, SAU has grown to be a dynamic and vibrant scholarly community, offering degrees at the bachelor's, master's and doctoral levels. International applicants can receive an admission decision within two weeks of applying. More than 3,300 students are enrolled at the university including 2,526 undergraduate students and 817 graduate students.

Distinctions

- Ranked 35th on *US News & World Report's* "Regional Universities Midwest" out of a region of 12 states
- Ranked 34th in "Best Value"
- *US News & World Report*
- Recognized with distinction on the *President's Higher Education Community Service Honor Roll* in the Category of General Community Service. In 2015 SAU was commended by President Barack Obama for engaging its students, faculty, and staff in meaningful service that achieves measurable results in the community.

Academics

SAU is committed to quality instruction that fosters development of a broad awareness of humanity in all its dimensions. Its student-centered programs lead to undergraduate and graduate degrees through the doctoral level. Non-degree offerings are also available. SAU has an 11-to-1 student to faculty ratio and offers more than 75 areas of study.

Quality of Life

- More than 100 clubs and organizations
- National Association of Intercollegiate Athletics programs
- Campus activities: concerts, art exhibits, international week, theater, lectures
- Security personnel on campus 24/7
- New residence halls

Scholarships

SAU offers merit-based scholarships for academic performance, athletics, music, theater, and art. Qualified first-year undergraduate applicants are eligible for scholarships of up to \$14,000 per year.

Location

From world-famous festivals to numerous family activities and engaging theater and arts venues, the Quad Cities has something for everyone.

With a metro area population of 350,000, the Quad Cities ranks second only to Chicago in the two-state area of Iowa and Illinois. The Quad Cities is just a few hours away from major metropolitan areas such as Des Moines, Chicago, St. Louis, and Minneapolis. A pleasant surprise of the area is housing affordability.

Students choose Seattle Pacific University (SPU) for its rigorous academics, supportive community, stellar Seattle location, and a vision to engage the culture and change the world. SPU is a Christian university with more than 4,000 graduate and undergraduate students from 39 countries and 45 states. SPU graduates are known for competence and character, bringing about positive change in communities around the globe.

Distinctions

- The only private university in Washington state to make the “Best National Universities” list
- *U.S. News & World Report*
- Ranked No. 2 in the category “Best Colleges – Best Value” in the West
- *U.S. News & World Report 2016*
- Ranked No. 17 in the category “Best Regional University”
- *U.S. News & World Report 2016*
- “Best Business Schools”
- *The Princeton Review*
- “Top 100 MBA Programs” globally
- Aspen Institute’s *“Beyond Grey Pinstripes”* survey

Academics

SPU offers 65 bachelor’s, 20 master’s, and five doctoral degree programs as well as 12 graduate certificates in programs ranging from business and psychology to nursing and engineering. Students enjoy small, engaging classes with caring and attentive professors (14:1 student-faculty ratio). With SPU’s emphasis on original research, students work alongside faculty in state-of-the-art laboratories and facilities.

Quality of Life

SPU’s close-knit setting enables students to forge life-changing friendships and benefit from the caring support of faculty and staff. Approximately 1,600 students live on campus in five residence halls and other housing options. SPU offers more than 60 student-led clubs, 24 intramural sports teams, and 14 NCAA Division II sports. Through special programs and activities, SPU’s Multi-Ethnic Programs support students from diverse backgrounds.

Scholarships

Merit scholarships and awards are automatically granted to qualified students. Scholarships range between \$2,000 and \$21,000 for incoming freshmen and transfer students. Ninety-five percent of SPU undergraduates receive merit-based scholarships or financial aid.

Location

Seattle, Washington is a world-class urban center in the Pacific Northwest, surrounded by water and mountains. Seattle is home to many famous businesses and technology companies. Set in a residential neighborhood, SPU’s 43-acre urban campus is minutes from downtown Seattle. Students use the city as an urban classroom through projects, community service, and internships. With a vibrant live theater and music scene as well as many restaurants, movie theatres, and parks, there is always plenty to do.

The University of North Carolina at Greensboro's (UNCG) academic programs, research, and partnerships contribute to a common goal - to be a responsive, engaged university focused on solutions to the problems of our times. As a doctoral-granting university, UNCG is committed to teaching based on scholarship and advancing knowledge through research. UNCG offers challenging programs led by outstanding professors, including nationally and internationally recognized researchers. Its exemplary learning environment enables students to acquire knowledge, develop intellectual skills, and become more thoughtful and responsible members of a globalized world.

Distinctions

- Ranked No. 21, ahead of all other UNC System Schools, for “Best Bang for the Buck Southeast Colleges” (Best Value) - *Washington Monthly*
- On the “Best Colleges” list for 26 consecutive years - *U.S. News and World Report*
- Among the nation’s “Best 381 Colleges: 2017 Edition” for the 18th consecutive year - *The Princeton Review*
- Recognized for excellence in community service and education - *the President's Higher Education Community Service Honor Roll, 2015*

Quality of Life

“Service” is the university’s motto—and a way of life at UNCG. UNCG’s 200 clubs and organizations allow students to participate in a variety of athletic, cultural, educational, political, religious, social and service-oriented learning activities.

Academics

UNCG provides challenging academic programs, hands-on learning experiences, and a supportive campus community. Outstanding professors inspire students to think and learn in new ways which allow them to feel both challenged and supported. UNCG offers more than 250 undergraduate, graduate, and certificate programs. With a student-to-faculty ratio of 20:1, the average class size is 25 students. UNCG’s Lloyd International Honors College offers an intellectually challenging experience with an international focus, and a variety of residential colleges encourage students and faculty to teach and learn about the world in innovative ways.

UNCG’s enrollment is approximately 19,000, including undergraduate (approximately 16,000) and graduate students. About 700 international students represent 72 countries.

Scholarships

For undergraduate scholarships, explore opportunities for which international freshmen are eligible at <http://admissions.uncg.edu/cost-and-aid-scholarships.php>. Graduate programs have merit awards that vary by department.

Location

Greensboro is the state’s third-largest city with a population of 277,000. The Blue Ridge Mountains are just a two-hour drive to the west; the Atlantic Ocean is 3.5 hours to the east; and Washington D.C. is five hours to the north. There is much to discover in Greensboro, including museums, Broadway and local theater, movies, galleries, coffee bars, concerts in the park, opera, ballet, and the symphony. Students also enjoy the downtown nightlife, where there are dozens of restaurants and nightclubs. Greensboro’s outstanding parks and recreation system includes 170 parks, gardens, and facilities.

Valparaiso University (Valpo) in Valparaiso, Indiana provides professional experience in a dynamic learning environment. Located just one hour from Chicago, Valpo has earned top rankings from *U.S. News & World Report* and the *Princeton Review*. Enrolling more than 700 international students from more than 40 nations, Valpo offers more than 70 majors and 83 minors within the College of Arts and Sciences, College of Business, College of Engineering, and College of Nursing and Health Professions. Certain programs, including engineering, education, psychology, nursing, and business enjoy national accreditation.

Distinctions

- No. 1 for “Best Value in the Midwest Region” for 2016 and No. 5 “Best Colleges in the Midwest” for 2016
- *U.S. News & World Report*
- “Best Midwestern Colleges” for 2015
- *Princeton Review*
- No. 1 in the Nation among Master’s Institutions in “Contribution to Public Good” for 2015 - *Washington Monthly*
- “Top 50 in the Midwest” in 2015
- *Forbes Magazine*

Quality of Life

With 4,500 students and ultra-modern facilities, Valpo’s 130-hectare campus contains more than 60 academic and residential buildings. Campus resources include state-of-the-art recreational and residential facilities, professional and career development support, and many student organizations.

Academics

The collaborative and supportive learning environment of Valpo enables students to explore new ideas which allow them to lead and impact life on campus and in the community. Students explore and articulate their identity as scholars and professionals, preparing them for internships and career opportunities that synchronize with their career goals.

Valpo offers more than 70 undergraduate degree programs and interdisciplinary options. Whichever major a student chooses, Valpo’s liberal arts curriculum will challenge them to broaden their understanding and tackle programs with creative solutions.

Many of Valpo’s more than 20 graduate programs hold the highest accreditation in their field. Regardless of the program students pursue, they will work alongside dedicated professors who prepare them for leadership and service in an increasingly globalized workforce.

Scholarships

International students who have demonstrated outstanding academic achievements, leadership, and a strong desire to continue their education at Valpo will be considered for an International Scholarship. Scholarships are only offered to students who are admitted to the university. For more information, visit valpo.edu/student-financial-services.

Location

Rated as one of the top 30 safest cities in Indiana, Valparaiso is a friendly community of 32,000. Residents can easily enjoy the cultural and intellectual life of Chicago, only one hour away, and the natural beauty of Lake Michigan and the Indiana Dunes National Lakeshore, within 20 minutes of campus. Valparaiso’s attractive downtown area includes a shop-lined main street and the city’s many parks offer excellent recreational opportunities.

Success in today's world demands increased cross-cultural knowledge, global awareness, and effective communication. Fluency in a second language, especially English, is vital for aspiring students, scholars, and business people seeking to achieve their personal and professional goals. To that end, INTERLINK uses an innovative, project-based curriculum, inspired by contemporary learning theories and practical applications, to lead students to participate actively and collaboratively in their learning. Individual needs and skills are carefully monitored to prepare students for their academic, vocational, or personal goals.

Our Vision

Committed to transformative language education and promoting cross-cultural understanding, we strive for a world in which humility, respect, and sensitivity prevail, and teachers and students contribute to enhanced communication among diverse groups of peoples.

Our Values

Our most precious assets are our students. All our actions stem from a single focus - disciplined attention to student needs. Our faculty embody the highest standards of professionalism, manifested with care, concern, and commitment. Our administrators are clear that they lead best by serving and serve best by meeting student needs.

Our Mission

We provide intensive English instruction, academic preparation, and cross-cultural training to empower students to succeed in academic, professional, and personal realms. With standards of quality and fairness as our guides, we promote enhanced learning and higher order thinking skills, grounded in an ethos of service.

Accredited by CEA, INTERLINK supports and complies with the standards established by:

CEA	Commission on English Language Program Accreditation
TESOL	Teachers of English to Speakers of Other Languages
NAFSA	Association of International Educators
EnglishUSA	American Association of Intensive English Programs

Distinctions

- Serious and academically qualified students
- Conditional admission (TOEFL waiver) for qualified students
- Focus on linguistic, academic, and cross-cultural skills
- Project-based curriculum, focused on independent learning
- Continuous, daily student assessment and feedback
- Opportunities to take concurrent university courses
- Faculty with advanced degrees in TESOL or related fields

Scholarships

INTERLINK scholarships are available for qualified students from selected countries and are awarded in accordance with students' academic achievement. Family members of current or former students are also eligible to receive a 20% tuition scholarship. For more information on available scholarships, see <https://interlink.edu/distinctions/scholarships/>.

Quality of Life

In all the cities and campuses where INTERLINK is located, students will find a plethora of outlets for their academic, social, recreational, and professional pursuits. On campus, students have access to an abundance of student-run organizations, athletic teams, and cultural festivities. Theater and music, restaurants and shopping venues, and opportunities to join faith-based communities are available both on and off campus.

Students have the choice to reside on campus in secure, comfortable residence halls where they can meet other students and practice their English. Alternatively, they can arrange for homestay accommodations and experience American family life, or live in off-campus apartments.

Throughout students' stay, the INTERLINK faculty and staff are available to support them in their cross-cultural adjustment as well as orient them to the campus and larger community. With such guidance and encouragement come lasting friendships with classmates, American students, and instructors.

Academics

Core Courses

The INTERLINK curriculum emphasizes intensive language learning, academic preparation, and cultural awareness. It focuses on listening, speaking, reading, writing, and critical thinking skills necessary for academic and social adjustment. Communication Skills (CS) and Reading/Writing (RW) courses are offered at six proficiency levels, each level lasting nine weeks. An average class size is nine students, with a maximum range of 12-15. Students attend 20-23 hours of classes per week and participate in additional out-of-class projects.

INTERLINK 101

INTERLINK 101 orients students to their new academic and social environment. It familiarizes students with INTERLINK's innovative, project-based approach to education, enabling them to benefit fully from its experiential and discovery-based components. Students learn study strategies and develop interpersonal and intercultural skills that will help them thrive.

Guided Independent Study Projects (GISP)

GISP provides language and cultural learning opportunities outside the classroom while allowing students to build relationships with American and other international students. Each week, students receive information about campus and community events and report back to instructors on their experiences. They share reflections on their cultural observations and language progress.

Location

Located on the campuses of highly ranked U.S. universities, INTERLINK provides its students full access to all facilities and many academic services. Students may opt for a particular location, based on various factors: public or private university, field of study, city size, proximity to larger metropolitan centers, climate, geographical region, etc. Whether students are looking for the friendliness and safety of a smaller town, or the pace of a city with high tech industries and more events, they can find their fit at INTERLINK.

Indeed, my passage through INTERLINK has been a rich and unforgettable experience. The professors chose topics which not only asked for a lot of reflection on an intellectual level but allowed us to exercise our knowledge of the language and have a real intercultural exchange.

– Florian Mbaku, Democratic Republic of the Congo
